

DHS Grants Consideration

This course is included in the Office of Grants and Training (G&T) Federally Sponsored Course Catalog. G&T encourages states, territories and urban areas to use this catalog with support of Homeland Security Grant Program (HSGP) funds, to enhance the capabilities of state and local emergency preparedness. Agencies can apply for grant money to cover the cost for overtime, backfill, travel, and other related training expenses.

The Federal Transit Administration, through the Transportation Safety Institute (TSI), Transit Safety and Security Division, offers a variety of safety and security training for the transit industry. To view all available transit safety and security training and the latest training schedule, go to TSI's website, transit section:

www.tsi.dot.gov

Registration

There are three ways to register for a TSI class: online, fax, or mail. See TSI's website for more information regarding registration.

Transit System Security: Design Review

T MetroTrain

101A

Transportation Safety Institute

Transit System Security: Design Review

- Basis of design - project requirements
- Principles of Transit Security Design Considerations
- Preliminary design
- Design development phases
- Final design phase and bidding
- Effective design reviews
- Construction and closeout
- Types of contracts
- Tabletop exercises
- Pretest, final exam

Course Overview

This course is designed to aid transit safety and security personnel who need to have a proactive impact on the design review process during design and construction of new facilities, new starts, rehabilitation of existing facilities, or extensions to current systems. This will allow for the reduction of crime and improvement of employee and customer security. This course is beneficial to those individuals who need to understand the design review process.

Course Elements

- The project's big picture
- Identifying security within the project
- Security certification process
- Roles and responsibilities in security
- Project management view of security
- The value in value engineering

2008 Schedule

- May 12-14, 2008 Oklahoma City, OK

CEU's

TSI has partnered with the IACET to apply Continuing Education Units (CEU's) to eligible transit safety and security training courses offered through TSI. Participants who successfully complete Transit System Security: Design Review receive 2.5 CEU's.

Who Should Attend

- General Managers Safety Directors
- Human Resource Personnel
- Risk Management Personnel
- Operations Personnel
- Maintenance Personnel
- Transit Security Personnel
- Law Enforcement Personnel
- Security Technology Vendors
- Transit Consultants
- Federal Security Personnel
- State Security Personnel
- Procurement Specialists
- SSO Personnel

Course Prerequisite

Successful completion of FT00432 - Transit System Security
